College of Information Sciences and Technology

The Pennsylvania State University

University Park, Pennsylvania

bcameron@ist.psu.edu

Brian Cameron is Executive Director of the Center for Enterprise Architecture in the College of Information Sciences and Technology at the Pennsylvania State University. Dr. Cameron is also the Program Director for the new Master of Professional Studies in Enterprise Architecture. Cameron actively consults with a wide variety of corporations and government bodies such as Accenture, AT&T Wireless, Avaya, Boeing, EMC<sup>2</sup>, Lockheed Martin, National Security Agency (NSA), Oracle, Raytheon, U.S. Marine Corps, and many others.

Dr. Cameron has designed and taught a wide variety of graduate and executive education courses, both online and face-to-face, in areas including enterprise technology strategic planning, strategic alignment, business process management, capability modeling, enterprise technology leadership and decision making, information technology innovation, enterprise architecture, enterprise integration, portfolio management, information technology governance, and many others. He is consistently ranked as a top teaching faculty member for professional audiences.

Dr. Cameron's accomplishments have led to invitations to speak internationally in venues that include the White House Conference Center, The World CIO Forum, The Office of the CIO of the U.S. Department of Defense, The National Association of State CIOs, and many other professional organizations and corporations. Dr. Cameron received the Career Achievement Award in 2011 from the Network Professional Association (NPA) for efforts related to the founding of the Federation of Enterprise Architecture Professional Organizations (FEAPO), the building of the Center for Enterprise Architecture, and associated service to the profession. Past recipients of this award include Tadao Saito, CTO of Toyota; Joseph Sifer, Senior Vice President, Booz Allen Hamilton; and Ted Thompson, CIO of the American Red Cross.

Cameron is a member of the Professional Education Standards Committee of the International Professional Practice Partnership (IP3), a member of the Global Industry Council (United Nations Affiliated), a member of the Board of Trustees for the Center for the Advancement of the Enterprise Architecture Profession, a founding board member of the Business Architecture Guild, the founding president of the Federation of Enterprise Architecture Professional Organizations, a founding member of the MITRE Enterprise Architecture Body of Knowledge Governing Board, a Co-chair of the Academic Alliance Committee for the Special Interest Group on Enterprise Architecture for the Industry Advisory Council of the U.S. Federal Government, and a member of the editorial review boards for the *Journal of Enterprise Architecture*, the *International Journal on Cyber Behavior, Psychology, and Learning*, the *Interdisciplinary Journal of Information, Knowledge, and Management*, the *Journal of Information Systems Education*, and the *International Journal on E-Learning*.
